H = Tax holidays are available to certain corporations in the provinces indicated.

\* The lower rate applies to active business income of CCPCs up to \$450,000 in Manitoba and \$350,000 in Nova Scotia. The higher rate applies to active business income of CCPCs from this threshold to \$500,000.

### Notes:

- See the table, **General and M&P Corporate Income Tax Rates**, for the rates that apply to CCPCs on active business income above \$500,000. The \$500,000 federal small business threshold also applies in all provinces and territories, except Manitoba and Nova Scotia.
- See footnote 3 to the table, **Federal Corporate Tax Rates**, for a description of the federal small business deduction clawback and threshold. The clawback also applies for the purposes of all provincial/territorial small business deductions except that in Ontario, it did not apply for taxation years ending before May 2, 2014 (pro-rated for taxation years straddling May 1, 2014).
- For recent and planned changes to the federal small business deduction, see footnote 3 to table, **Federal Corporate Tax Rates**.
- Rates on investment income are 23.67% higher than the general rates for 2016 (see the table, **General and M&P Corporate Income Tax Rates**), because:
  - CCPC investment income does not benefit from the 13% federal general rate reduction; and
  - the rates on investment income include a 10% tax that is refundable when the CCPC pays taxable dividends.

See also "Refundable Investment Tax" in the table, **Other Federal Corporate Tax Rates for 2016**, and footnote 3 to that table for recent changes to the refundable investment tax.

- Recent and planned Manitoba changes are shown in the following table:

	Manitoba changes effective after December 31, 2011		
	From	To	Effective
<b>Threshold up to which CCPC rate applies</b>	\$400,000	\$425,000	January 1, 2014
	\$425,000	\$450,000	January 1, 2016
	\$450,000	\$500,000*	Starting in 2017*

\* Manitoba's December 1, 2015 news release announced that the CCPC small business threshold will increase from \$450,000 to \$500,000, starting in 2017 (the exact date is forthcoming).

- Recent and planned New Brunswick changes are shown in the following table:

	New Brunswick changes effective after December 31, 2011		
	From	To	Effective
<b>CCPC rate</b>	5%	4.5%	January 1, 2012
	4.5%	4%	January 1, 2015
	4%	2.5%*	By 2018

\* New Brunswick's October 8, 2014 news release announced that the government is committed to decreasing the CCPC rate to 2.5% by 2018. The province's 2015 budget confirmed its intention to reduce the rate to 2.5%.

- Recent Newfoundland and Labrador changes are shown in the following table:

<b>Newfoundland and Labrador changes effective after December 31, 2011</b>			
	<b>From</b>	<b>To</b>	<b>Effective</b>
<b>CCPC rate</b>	4%	3%	July 1, 2014

8. Recent Nova Scotia changes are shown in the following table:

<b>Nova Scotia changes effective after December 31, 2011</b>			
	<b>From</b>	<b>To</b>	<b>Effective</b>
<b>CCPC rate</b>	4.5%	4%	January 1, 2012
	4%	3.5%	January 1, 2013
	3.5%	3%	January 1, 2014
<b>Threshold up to which CCPC rate applies</b>	\$400,000	\$350,000	January 1, 2014

9. Corporations subject to Ontario income tax may also be liable for corporate minimum tax (CMT) based on adjusted book income. The minimum tax is payable only to the extent that it exceeds the regular Ontario income tax liability. For the rate and thresholds, see the table, **General and M&P Corporate Income Tax Rates** (footnote 7).

10. The federal small business deduction clawback (see footnote 3 to the table, **Federal Corporate Tax Rates**) was extended to Ontario, for taxation years ending after May 1, 2014 (pro-rated for taxation years straddling this date).

11. Recent Prince Edward Island changes are shown in the following table:

<b>Prince Edward Island changes effective after December 31, 2011</b>			
	<b>From</b>	<b>To</b>	<b>Effective</b>
<b>CCPC rate</b>	1%	4.5%	April 1, 2013

12. Planned changes to Quebec's CCPC rates that apply for taxation years beginning after December 31, 2016:

- require a CCPC to meet additional criteria (i.e., number of employees, percentage of activities in the M&P and primary sector) to be eligible for the province's regular CCPC rate;
- increase the regular CCPC rate in certain cases;
- extend the M&P CCPC rate to CCPCs in the primary sector (i.e., agriculture, forestry, fishing and hunting, mining, quarrying, and oil and gas extraction); and
- determine the percentage of activities attributable to M&P and primary activities based only on labour costs (assets are no longer a factor)

13. Recent and planned Quebec changes are shown in the following table:

<b>Quebec changes effective after December 31, 2011</b>			
	<b>From</b>	<b>To</b>	<b>Effective</b>
<b>CCPC rate (M&amp;P)</b>	8%	6%*	June 5, 2014
	6%*	4%*,**	April 1, 2015

\* For taxation years beginning before January 1, 2017, the rates apply to all active business income up to \$500,000 if 50% or more of the CCPC's activities are attributable to M&P (based on M&P assets and labour). If this percentage is under 50% and more than 25%, the rates will increase proportionately (straight line) to 8% (i.e., the rate is 8% when the M&P percentage is 25% or less).

\*\* For taxation years beginning after December 31, 2016, the 4% rate applies to all active business income up to \$500,000 if 50% or more of the CCPC's activities are attributable to M&P and the primary sector (based on M&P and primary sector labour). If this percentage is under 50% and more than 25%, the rates will increase proportionately (straight line) to 8%, or the general rate, depending on the circumstances (i.e., the rate is 8%, or the general rate, when the M&P and primary sector percentage is 25% or less).

14. Recent Yukon changes are shown in the following table:

<b>Yukon changes effective after December 31, 2011</b>			
	<b>From</b>	<b>To</b>	<b>Effective</b>
<b>CCPC rate (M&amp;P)</b>	2.5%	1.5%	July 1, 2014
<b>CCPC rate (non-M&amp;P)</b>	4%	3%
